Day 2

0800-1600 Concurrent working group sessions. Technology working groups meet in concurrent sessions to discuss and prepare findings, conclusions, and recommendations.

Technology Workshop

- High speed hull forms and propulsor technology
- High density/efficiency propulsion/prime mover technology
- Load materials high strength/lightweight structures technology
- Critical ship/port interface (load/unload, C4I) technologies
- Ship/system concepts
- Shipbuilding/Manufacturing

Co-Chairs

Mike Davis, NSWC  
Chris McKesson, J.J. McMullen

Gordon Duvall, NSWC  
Jose Femenia, USMMA

Jerry Sikora, NSWC  
Scott Lewitt, Structural Composites, Inc.

Arthur B. Rausch, NSWC  
Edmond Dougherty, August Design

Colen Kennell, NSWC  
Dave Lavis, Band Lavis

Tim Colton, Colton and Company

Day 3

Presentation of the findings of the technology working group deliberations.

0800-1030	Technology Workgroups Finalize "Brief-outs"	
1030-1055	High speed hull forms and propulsor technology	
1055-1120	High density/efficiency propulsion/prime mover technology	
1120-1145	Load materials high strength/lightweight structures technology	
1145-1245	Lunch	
1245-1310	Critical ship/port interface (load/unload, C4I) technologies	
1310-1335	Ship/system concepts	
1335-1400	Shipbuilding/Manufacturing	
1400-1430	Discussion of February "Brief-outs"	Mr. Keith Seaman
1430-1500	Closing Remarks	BG King
		Mr. Jonathon Kaskin
		RADM Naughton
